Hello, I'm Hamad

DO'S & DON'T FOR UI DESIGN
Overlapping elements on a page or profile card is a great way to create depth and clarity in design.

John Carter

Aliquam ut vitae vitae enim viverra luctus sollicitudin aliquam itae pulvinar vestibulum dict at ipsum.

Use a border around image to differntiate and more cleaner look.

Fail to read

Use a dark colored text on lighter color background is much easier to read and looks better.

Did you find it Useful?
