JavaScript One Liners You Should Know 🚀

Tarak Shah

Get the sum of an array of numbers

```
                          test.js

const sum = [1, 2, 3, 4, 5].reduce((a, b) => a + b);

console.log(sum);

//Output
15
```

Tarak Shah

Remove duplicate values from an array

```js
test.js

const uniqueArr = [...new Set([1, 2, 3, 3, 4, 4, 5])];

console.log(uniqueArr);

//Output
[ 1, 2, 3, 4, 5 ]
```

Shuffle an array (Randomly rearrange array elements)

test.js

```js
const shuffledArr = [1, 2, 3, 4, 5].sort(() => Math.random() - 0.5);

console.log(shuffledArr);

//Output
[ 3, 2, 1, 5, 4 ]
```

Reverse a string

```js
                                    test.js

const reversedStr = 'hello world'.split('').reverse().join('');

console.log(reversedStr);

//Output
dlrow olleh
```

Generate a random number between two values

test.js

```js
const randomNum = (min, max) => Math.floor(Math.random() * (max - min + 1)) + min;

console.log(randomNum(100,999));

//Output
347
```

Tarak Shah

Check if a string is a palindrome

test.js

```javascript
const isPalindrome = str => str === str.split('').reverse().join('');

console.log(isPalindrome('aba'));

//Output
true
```
